WE INVITE NEW MEMBERS TO JOIN THE UCECA

THANK YOU for your interest in joining the Union County Electrical Contractors Association (UCECA). The UCECA is a group of people who are actively engaged in the electrical contracting business. Good fellowship and sound business practices are the prime requirements of membership. The principal aim of this association is for the members have a better acquaintance with the individuals they compete and work with, thereby practice the unwritten rules of fair competition.

Some of the many membership advantages are: the dissemination of necessary code information as rapidly as it can be procured; the promotion of good relations between contractors, inspection authorities, and municipalities; providing information regarding new materials, methods, trends, with the assistance of manufacturers and suppliers; understanding and having a voice in the process of the legislation of laws that affect us every day on all levels of government, including our licensing board; access to business insurance plans; and more. Our continuing education department holds several NEC code seminars each license cycle, and plans are well underway for the coordination of additional education seminars to facilitate the 34 hour continuing education (CE) requirements set forth by the State of New Jersey, many being held free to members in our regular monthly meetings.

Our monthly dinner meetings, which are held on the fourth Monday of the month (**with exception to July & December**), are held at MARIO'S TUTTO BENE, 495 Chestnut St., Union, NJ at 6:30pm. Dinner is included in your membership. Many monthly meetings include CE programs, which offer hours towards your CE requirements and are free to members. When a CE program has a fee attached, UCECA members pay a special rate. A special ladies' night function is held each year and all members are encouraged to participate. When scheduled, we also have out trips or attend special open houses at various locations, including local supply houses, which are free to members (unless there is a ticket fee for the event).

Again, **THANK YOU**, for your interest in becoming part of our association for which you should be part of, especially if you are in the field of electrical contracting. You will be informed with the latest developments of our profession, while participating with a group of friendly individuals striving to better our profession and industry.
